

BUCKEYE CLUB IS WELL ENTERTAINED

The Buckeye Club was entertained last evening in its regular meeting in the hospitable home of Mr. and Mrs. Henry Waterhouse. The drawing room, reception hall and dining room were brilliantly lighted and the guests given a cordial welcome.

The feature of the evening was to have been a stereopticon display by W. H. Rice, who was, unfortunately, unable to be present. Mr. W. L. Whitney endeavored to present the pictures, which were mostly colored slides of scenes in the Hawaiian Islands, interspersed with pictures of Pompeii, Herculaneum and Vesuvius, with a complete presentation of the Martinique disaster, but unfortunately the electrical apparatus proved too strong for the chandelier fuses, and after several futile attempts this had to be abandoned.

The social side of the evening was admirably sustained by Mrs. Waterhouse, assisted by Mrs. Corbett, who served a fruit drink toward the close of the evening. Much pleasure was had by the guests in viewing at close range several of the objects of art which were acquired by Mr. and Mrs. Waterhouse on their recent European tour.

AGAIN STRICKEN WITH PARALYSIS

Bernard Bergersen, the local agent of the Singer Sewing Machine Company, suffered a severe partial stroke of paralysis yesterday while in the office of Dr. Hoffmann where he had gone to obtain relief from pains which came on during the day. He became unconscious and it was found necessary to remove him quickly to his home. A hack was called but he could not be carried in this vehicle and High Sheriff Brown tendered the use of the patrol wagon upon request. The unfortunate man was placed upon a stretcher and carried in this to his home in the Kapiolani Park annex, on Campbell avenue. Mr. Bergersen suffered a similar stroke about eight months ago and was in a critical condition for some time.

KAIMILOA AS A STORAGE HOUSE

The old Hawaiian war vessel Kaimiloa is to be degraded still more. The Pacific Oil Transportation Co. is to convert her into a storage house for fuel oil, and a wooden tank of 1500 barrels capacity is to be installed upon the old hull. She will carry a steam duplex pump, the steam to be supplied from aboard the vessel she is discharging oil into. Supt. Cooper has made certain regulations which must be complied with to assure safety from oil combustion.

The Summer Case.

For the first time in nearly a month there was nothing new in the Summer case yesterday. There is considerable talk among attorneys condemning the action of the lawyers in the matter, but it is hardly probable that anything will be done at the meeting of the Bar Association next Friday, as that is called for a specific purpose only. If disbarment proceedings are brought the action would have to be begun by the Attorney General.

The Oahu Lumber and Building Company has filed a notice of material man's claim to the amount of \$349.83 against the Inter-Island Telegraph Company. L. L. McCandless is also included as garnishee. A suit for the amount has been instituted.

Wool Crop a Poor One.

Among the through passengers on the Ventura were S. Clementson and G. W. Mallalieu, two Boston wool buyers, who are on their way home from their annual wool buying trip to Australia. Both said while here that the Australian wool crop was far below expectations on account of the drought and that conditions might be worse next season.

A New Home Sewing Machine

Is generally regarded as the best machine on the market today. In these days while some manufacturers are flooding the country with worthless sewing machines and issuing circulars wherein they have copied the legitimate claims of reputable companies, many purchasers become bewildered and puzzled and find it difficult to make a selection. The popularity that the NEW HOME MACHINES have earned and which they maintain throughout the world is evidence of their superiority and as we have always enjoyed the enviable reputation of handling only first-class machines, there need be no hesitation in buying from us.
